WORK EXPERIENCE

Pet shop

2022

- Answered customer queries, resolving problems and providing customer orders based on customer and pet recommendations

Natural Products Store

2023

- Opening and closing the store, monitoring stock, ensuring the availability of natural products and supplements. Along with customer service.

Front-End Developer

05/2023 - 09/2023

- Website development: I participated in website creation and development projects using different technologies, such as HTML, CSS and JavaScript. Contributed to the creation of user-friendly and functional interfaces, in addition to ensuring integration with databases, when applicable.
- Application programming: I worked on projects that involved programming applications for different platforms, such as Android and iOS. Collaborated with others on the team to identify requirements, design the application architecture and implement functionalities.
- Technical Problem Solving: I have faced technical challenges on several occasions, such as identifying and fixing bugs, optimizing performance, and implementing creative solutions to complex problems.
- Team collaboration: I actively participated in teamwork, taking on tasks and meeting deadlines. I had the opportunity to communicate ideas, share knowledge and contribute to the overall success of projects.
